SUMMARY

Computer Engineering student with hands-on experience in software development, Android application development, Firebase integration, and UI/UX design. Skilled in Java, Python, and problem-solving with a strong interest in Artificial Intelligence and Large Language Models (LLMs). Experienced in building real-world projects, writing technical documentation, and following detailed instructions with high accuracy. Seeking an opportunity to contribute as an AI Trainer or AI Data Specialist at Outlier.

EDUCATION

**Pune Vidhyarthi Griha's College of Engineering, Technology and Management,
Pune**

Bachelor of Technology (B.Tech) – Computer Engineering

Expected Graduation: 20XX

PROJECTS

RideConnect – Real-Time Rider Tracking & Safety System

- Developed an Android application for real-time rider location tracking.
- Integrated Firebase for live synchronization.
- Implemented Google Maps API for navigation and live tracking.
- Designed a modern UI prototype using Figma.
- Improved rider safety through real-time communication features.

Fire & Smoke Detector Security System

- Developed an Arduino-based fire and smoke detection system.
- Integrated smoke and temperature sensors with buzzer alerts.
- Implemented automated emergency detection logic.
- Demonstrated embedded systems programming and hardware integration.

TECHNICAL SKILLS

Java

Python

C

Android Studio

Firebase

Google Maps API

Git

GitHub

VS Code

Figma

Object-Oriented Programming

Data Structures

Problem Solving

Prompt Engineering

Technical Documentation

AI Prompt Writing
Analytical Thinking

STRENGTHS

Strong analytical thinking Excellent written communication Attention to detail Fast learner Team collaboration Ability to follow complex guidelines Critical thinking Research and problem solving

LANGUAGES

English Hindi Marathi

INTERESTS

Artificial Intelligence Large Language Models (LLMs) Software Development Android Development UI/UX Design Machine Learning
